No. AIGETOA/KTK/15-16/ 05

Dated: 23.07.2015

Respected GS/AIP Sir,

As per the call from CHQ, regarding working with full zeal as our HR issues are on right trace. I would like to raise a concern, which needs to be checked by CHQ team with MM cell at Corporate office.

Since expansion of MPLS PE network and digital India are correlated, hence I am raising a red flag in this regard. As we are well aware of the fact that MPLS is the backbone to all data services of BSNL and it is being extended to entire India. It servers all data traffic, right from MPLS VPN i.e. banks, to 3G, GPRS, Wi-MAX, Broad Band and any other data service which we can think of today in BSNL.

We are basically running our services on PE router i.e. CISCO 7613 which came under NIB2P1 project way back in 2005. After that in this year January – February 2015 a new edge tender was finalized, M/s Huawei was allotted with the edge tender, M/s huawei is the one who were allotted with MPLS core tender as well under MNGT project and it has already been rolled out though out India. The thing which is not understood to most of people working here is even after finalizing of the tender why the PO or APO is not being placed on the vendor. We need to follow it up with MM cell in corporate office to get the details of the same.

With regards,

(Sundar Raju)
